MEDIA RELEASE

T2 Systems Adds Eight New Parking Professionals to its Customer Advisory Board

(INDIANAPOLIS, IND.— August 25, 2010) T2 Systems is happy to announce the newest members of its Customer Advisory Board (CAB). The eight new members are representative of T2's customer base including a mix of cities, medical centers and universities of all sizes.

The T2 CAB serves as a channel for feedback about the state of the parking industry and current trends and needs. The CAB is also very active in shaping future T2 initiatives, as one of the main responsibilities of its members is to provide input on the quality of T2 products, services and support.

The following parking professionals are the newest members of the T2 CAB: **Victor Garcia**, Alberta Health Services; **Melinda Helton**, CAPP, Arizona State University; **Liliana Rambo**, CAPP, City of Houston; **Brad McKendry**, CU Boulder; **Chuck Landis**, Duke University; **Josh Cantor**, George Mason University; **Gary Means**, CAPP, Lexington & Fayette County Parking Authority; **Shi Brooks**, Mississippi State University.

"We are so excited to have this group of experienced parking professionals join our Customer Advisory Board," said Irena Goloschokin, Executive VP of Strategy and Products. "Our Customer Advisory Board is key to helping T2 maintain its customer-focused strategy. The continual feedback, honest communications and relationships established with our customers - and those established among our customers - is what makes T2's approach to product development and support so unique in the industry."

T2's leadership and management teams meet regularly with the CAB to discuss pertinent, timely issues and exchange information. The CAB also has an important role in the planning of T2's User Group conference, the annual gathering of all T2 customers for in-depth training and networking opportunities.

The complete list of all T2 CAB members is found on the T2 website at http://www.t2systems.com/_Public/CAB.aspx.
