MEDIA RELEASE

Stefan Tea joins T2 as Director of Channel Management

Tea to manage relationships with the growing community of T2 distributors

(INDIANAPOLIS, IND.— October 25, 2010) T2 Systems Inc. is excited to announce that Stefan Tea joins the company as Director of Channel Management on November 1, 2010.

Tea brings more than 20 years of experience in parking to T2 Systems, including serving as Vice President and General Manager of Magnetic North America since 2003. During his tenure at Magnetic, he developed strong relationships with many organizations in the business, including distributors, private operators, consultants and many others serving the parking industry. Trained as a Mechanical Engineer, he brings both technical expertise in parking systems and business skills to this role.

The Director of Channel Management is a new role and was created as a result of rapid growth in the number of parking operations implementing the T2 Flex Access & Revenue solution. Over 30 parking operations now use the T2 Flex unified parking management system to manage their parking facilities, permits, enforcement and events, and the number continues to grow quickly. Many regional and national PARCS distributors and system integrators have engaged with T2 to jointly serve these customers.

In his new position, Tea will work with existing and new channel partners to promote and deliver T2 solutions for access & revenue control, event parking, and permits and enforcement.

"I'm excited to have Stefan join the T2 Team where he will play a critical role in working with T2 channel partners and bringing new distributors on board to better serve our growing customer base," said Mike Simmons, T2 Systems' co-founder and president. "His industry knowledge and experience are invaluable and will help us deliver better service to our distributors and ultimately our customers."
