

In the parking business you need the right equipment in order to be successful. Trust T2 Systems to provide you with the best handheld ticket writing options, including real-time communication and image capture in the field. All handhelds work with T2 Flex™ parking management software. Choose from a variety of models that allow you to write citations and warnings, download scofflaw lists and permits, issue temporary parking permits, take payment for parking at events, and give field officers the information they need, when they need it.

## Handhelds and Printers
