# XF Print and XF Scan

## All-in-one Hardware Solution

### SPECIFICATIONS

# INTRODUCING THE XF SERIES

Featuring an integrated 3" thermal printer, an optional high performance 2D red laser scanner for licenses and permits, and a 64-megapixel camera, the XF is ideal for every mobile public safety application.

The XF was built with flexibility in mind. Unlike handheld models of the past, this user interface is completely removable and replaceable, meaning less downtime during repairs. The XF has an impressive battery life and promises an enduring lifespan. As technology evolves, only the Samsung Note 20 will need to be upgraded — not the entire unit.

A 3-year warranty is available for the XF handheld device.

## DETAILS

### Supplemental "Hot–Swap Battery"

- Lithium-ion
- -20° - +60°C Operating Temperature

### 3-inch Direct Thermal Printer

- Direct thermal
